### The Pugilists Arrested.

LONDON, Sept. 22.—It is reported  
that Slavin and McAuliffe have been  
arrested. McAuliffe was arrested at  
his lodgings in this city. Slavin was  
arrested on his arrival from his training  
quarters at Dover. They will be  
arranged this afternoon on a charge of  
conspiracy to commit a breach of the  
peace. Upon his arrival at the rail-  
way station, Slavin entered a cab and

He was conveyed quickly to the Lam-

The Portuguese residents of Bombay

## WHAT HUNTINGTON SAYS.

A Friendly Expression from the  
Great Railroad Magazine.  
The Board of Trade received the fol-  
lowing letter from C. P. Huntington in  
answer to the one published in the  
GAZETTE about one month ago, and it  
explains itself:

New York, Sept. 13, 1890.  
To C. C. Powning, M. D. Foley,  
W. O. H. Martin, L. D. Folsom  
and A. C. Bragg, Comm. Nevada  
State Board of Trade, Reno, Nev.  
—GENTLEMEN: On my return to this  
city, after an absence of about two  
weeks, I find your communication,  
addressed to the Directors of the South-  
ern Pacific Company, and two mem-  
oranda, all of which I have read with  
care, and while I do not agree with the  
committee in all its statements, in the  
main I think you are right and, as  
President of the Southern Pacific Com-  
pany, I should advise its officers to  
work with the committee and do all  
they can to advance the interests of  
Nevada. As every stockholder of the  
railroad company will be benefited by  
the company's doing what it can prop-  
erly do to benefit the State, I think we  
need not fear that they would blame  
the management for such action; but  
what is done will have to be done  
largely by the people of the State for  
various reasons, one of which is that  
the railroad company has but little  
surplus to spend for this or any other  
purpose.

Then the people of the State will, in  
the main, always have to know of  
some land, its price, conditions, etc.,  
that can be obtained by settlers to  
locate upon when they arrive. The  
acreage need not be large, but there  
should always be a few thousand acres  
ready for immediate settlement and so  
located that settlers can have the  
assurance that if there is no water on  
it, water can be brought to it without  
much loss of time and at no consider-  
able expense.

Every new settler, too, will have left  
behind him neighbors, some of whom  
may be induced to follow his example  
in settling in Nevada. Some one  
should see to it that he writes letters  
to them, as that is the best way to  
attract new settlers and it can be done  
at a smaller cost than in any other  
way. Then there must be schools and  
churches to get and keep such settlers  
as you want.

Of course, there are many things to be  
thought of in this connection, perhaps  
more of which than I have briefly alluded to,  
and some of these will not doubt suggest  
themselves to you; but I have been  
exceedingly busy since my return to  
the city and have not been able to take  
up and exhaust any subject; so that  
the further consideration of the matter,  
so far as my own views are concerned,  
will have to wait for my arrival in  
California (which I now expect will be  
early next month), when I shall be  
happy to meet some of your people and  
try to arrange matters in a way that  
will bring the largest number, and the  
best people possible to get, to your  
State for permanent settlement. I am,  
gentlemen, yours very truly,

C. P. HUNTINGTON.

## BREVITIES.

Read the 50 cent ad of a hot dinner  
at Dunning's building.  
Since the reception yesterday morn-  
ing of the news of the Governor's death,  
the flags of Reno have hung at half  
mast.

It has not yet been decided what  
day the Reno business men will give  
their clerks a chance to attend the  
Fair.

J. W. Calbraith, an old resident of  
Carson city, who for the past thirteen  
months has been on a visit to Callo-  
way county, Mo. returned this morning.

running horses in California, got a  
week off, and accompanied by his sister  
Corrie, returned yesterday from  
Sacramento.

### Happy Moonshiners.

Wm Timmons, Postmaster of Idaville, Ind.,  
writes: "Electric Bitters has done more  
for me than all other medicines combined,  
for that bad feeling arising from Kidney  
and Liver trouble." John Leslie, farmer and  
stockman of same place, says: "Find the  
Electric Bitter to be the best Liver and Kid-  
ney medicine, made me feel like a new man."  
J. W. Garner, hardware merchant, same  
town, says: "I found the Electric Bitter  
just the thing for a man who is all run down  
and don't care whether he lives or dies. He found  
new strength, good appetite and felt just like  
he had a new lease on life. Only 50c a bot-

## WORK OF CONGRESS.

### Democrats Continue to Obstruct.

### SOME UTAH NOMINATIONS.

Commencement of a Canadian  
Murder Trial.

### Killed by the Soldiers at Goa, India.

### Congressional Matters.

WASHINGTON, Sept. 22.—O'Ferrall of  
Virginia and Smith of Arizona were  
the only Democrats in the hall when  
the House was called to order.

The Clerk, under the direction of  
the Speaker, called the roll on the ap-  
proval of Friday's journal, which re-  
sulted, yeas 153, nays 0. No quorum.  
A call of the House was ordered, when  
159 members responded, and still there  
was no quorum.

On motion of McKinley a Republi-  
can caucus was announced to be held  
immediately.

Morey, of New Hampshire, intro-  
duced a rule in the House to-day mak-  
ing it an offence, with punishment by  
a fine of \$500, for a member to abs-  
ent himself for the purpose of breaking a  
quorum.

### SENATE.

After the passage of a number of un-  
important bills, the senate resumed  
the consideration of the bill to define  
and regulate the jurisdiction of the  
courts of the United States.

Congressman Frank L. Morer, of  
Louisiana, died this morning. Mala-  
rial troubles, combined with brain af-  
fection, were the causes of death.

Although a meeting of the confer-  
ence committee on the tariff bill was  
called for this morning, when the hour  
of meeting arrived the Democratic  
members were notified there would be  
no meeting. The reason for the post-  
ponement was a desire on the part of  
the Republican conferees to consult  
further among themselves. It appears  
no progress has been made since Sat-  
urday on the disposition of sugar,  
binding twine, the bonded period and  
the metal amendments, but that these  
are in such shape that an agreement  
can be reached upon, one which will  
probably also result in an agreement  
upon the others.

The conclusion reached by the Re-  
publican representatives in caucus this  
afternoon was to go on with the Lang-  
ston-Venable election case at all haz-  
ards.

### Utah appointments.

By Associated Press.]  
CRENSON SPRINGS, Pa., Sept. 22.—  
The President sent the following nomi-  
nations to be Senate this morning:  
Probate Judges for Utah, Francis L.  
Daggett, of Washington county; Henry  
Shields, of Summit county; Charles H.  
Herman, of Toole county; Jacob John-  
son, of San Pete county; Stephen R.  
Faulquier, of Job county; Hector W.  
Haight, of Davis county; Wm. Good-  
win, of Cache county; and Thomas S.  
Watts, of Wasatch county.

### A Murder Trial.

By Associated Press.]  
WOODSTOCK (Ont.), Sept. 22.—The  
trial of Burchell for the murder of a  
young Englishman was begun this  
morning. The prisoner was faultlessly  
attired and was perfectly self-possessed.  
He pleaded not guilty.

When the work of choosing the jury  
was concluded the Counsel for the  
prosecution then made his opening ad-  
dress, setting forth the chain of evi-  
dence on which a conviction will be  
asked.

### "A VOICE FROM HOME."

A Well Merited Compliment to  
Judge Bigelow.  
The Crescent City News, a paper  
published in Del Norte county, Cal.,  
contains the following well-merited  
notice of Judge Bigelow:

A letter received from our old friend  
Hon. R. R. Bigelow, of the State of  
Nevada, informs us of his nomination  
by the recent Republican State Con-  
vention for the office of Associate Jus-  
tice of the Supreme Court of the State.  
Mr. Bigelow received his first impres-  
sions of law as a student in our office.  
Afterwards he was a partner for a num-  
ber of years; during all of which time  
we learned not only to esteem him for  
his noble qualities, but to love the  
man, and we do not hesitate to say  
that the Republican party of the State  
could not have done itself more honor  
than to nominate a man of his sterling  
qualities for that high position. Mr.  
Bigelow has served as district judge  
for ten or a dozen years, and has well  
merited this high distinction at the  
hands of his party.

We find St. Patrick's Pills to be very  
extra and to give splendid satisfaction.  
They are now about the only kind  
called for.—W. A. WALLACE, Oxnard, Ia.

## THE STATE FAIR.

It Opens Under Favorable Aus-  
pices and Promises to Be All  
That Could Be Expected.

The State Fair opened to-day with a  
fine exhibit of live stock and fast fly-  
ers and promises to be a great success  
in every way. The attendance was  
not as large as the first day last year,  
but a good crowd was present, includ-  
ing many ladies, and the grand stand  
presented a gay appearance.

The live stock exhibit will be fully  
up to the standard, judging from the  
number of stalls already engaged. The  
following have engaged stalls: T. G.  
Herman 6, J. W. Thompson 2, Mrs. S.  
E. Robber of Winnemucca 3, H. Ede 1,  
R. Powell 2, Chas. Johnson 1, Henry  
Stevenson 1, J. J. Becker 3, Wm.  
Wright 3, B. F. Leete 1, M. Gulling 1,  
Robert Eason 1, J. B. Ede 1, J. J. Gault  
1, T. H. Krival 1, W. C. Snodgrass 2,  
A. Smith 4, D. H. Dillard 2, R. Bag-  
ley 1, W. O. Hardin 1, M. Gulling 3,  
S. J. Bryant 1, Alex. McGregor 2, W.  
L. Bechtel 1, J. O. Sessions 6, B. F.  
Leete 3, James Gault 1, and Joseph  
Marz 20.

The following was the program for  
to-day.

No. 1, selling purse, \$200; one mile:  
Condon entered by L. Allen; Jackson,  
by E. Savage; Roly Boly, by T. F.  
Lynch; Nerva, by Elmwood Stables.  
No. 2, running one mile, two-year-  
olds, \$200 added: Minnie E. entered  
by Dennison Bros.; Black Bart, by  
Theo. Winters; Joe, by Wm. Thomp-  
son; Sir Walter, by Elmwood Stables;  
Duke of Milpitas, by Elmwood Sta-  
bles; Kit Carson, by L. Allen.

No. 3, running one and one-quarter  
miles, purse \$300: Hotspur entered  
by Dennison Bros.; Tom Stacey, by  
Wm. Thompson; Princess of Norfolk,  
by Theo. Winters; Applause, by Wes-  
ley George; Nabau, by Elmwood Sta-  
bles.

The first race was a mile dash be-  
tween Nerva, Condon, Jackson, and  
Roly Boly. They went in a bunch to  
the half-mile post, when Jackson took  
the lead and maintained his position  
well into the stretch, and then Roly  
Boly went to the front and came in an  
easy winner, with Jackson second,  
Nerva third and Condon last. Time,  
1:44 1/4.

The second race was between Win-  
ter's Black Bart and Booth's stable of  
San Jose including Sir Walter and the  
Duke of Milpitas. Pools sold about  
even for Black Bart and Booth's stable.  
Black Bart got off in the lead, a po-  
sition that he kept until the outcome,  
and came in an easy winner in 1:04 1/2,  
which is pretty good time for a five-  
year-old.

The third race had not been con-  
cluded when the GAZETTE went to press.

### TO-MORROW'S PROGRAMME.

The first race will be running one-  
half mile and repeat. Ed. Williams  
enters The Jew; J. Dowd enters Sun-  
day; H. Wilder enters Dew Drop; and  
Snelder & Tryon enters Fida Ferguson.  
The second race will be a speed between  
Frank M. and two ponies, and promise  
to be highly interesting and closely  
contested.

The vaquero riding will be a feature  
and should attract a large attendance.

### "MILES AROON."

W. J. Scanlan Tonight in the  
Leading Role.

The Sacramento Record-Union of  
last Saturday, says of W. J. Scanlan  
who appears at the Opera House to-  
night: "W. J. Scanlan, in 'Miles  
Aroon,' filled the Opera House last  
night. Long before the curtain went  
up every seat was taken, and when the  
play began one could scarce  
find standing room in the side aisles or  
lobby. Such a large audience has not  
been seen in the Opera House in two  
years. The box clerk says he turned  
away fully two hundred people and  
probably more, as it was impossible for  
any more to go beyond the lobby  
doors. Scanlan was at his best as  
Myles. He has an excellent company  
and his plays are all well staged. He  
sings even better than when here a  
year ago, and as an actor is the same  
faithful and painstaking comedian as  
of old. It is not conventional, it is  
not coarse, nor ignorant, not slobber-  
ing. In short, his Irish peasant is a  
picture of the real at the best of Irish  
peasant life; humorous, big-hearted,  
generous, gallant, loving, faithful, coun-  
ting, tireless.

### Worlds Fair Site Settled.

The South Park Commissioner this  
morning agreed to allow the use of  
Washington Park for the Worlds Fair,  
in addition to the Jackson Park and  
Midway Plaisance. This practically  
settles the vexed site question to the  
satisfaction of the National Commis-  
sion. At the opening of the session  
this morning, the Commission passed  
resolutions of regret at the death of  
Governor Stevenson of Nevada.

Will be paid to any competent chemist who will  
find, on analysis, a particle of Mercury, Potash,  
or other poison in Smith's Specific (S. S. S.).

### AN EATING SORE.

Henderson, Tex., Aug. 22, 1890.—"For eight-  
teen months I had an eating sore on my tongue.  
I was treated by the best local physicians, but  
obtained no relief, the sore gradually growing  
worse. I concluded finally to try S. S. S., and  
was entirely cured after using a few bottles.  
You have my cheerful permission to publish the  
above statement for the benefit of those similarly  
afflicted." C. B. McLanahan, Henderson, Tex.

# 5 O'CLOCK EDITION

## Placer County Politics.

An old resident of Auburn, Cal., who for short we will call Brown, once took it into his head that he would like to go to the State Senate, believing that his twenty years of service to the Republican party entitled him to recognition. Not a blemish could be found in his character. He had ability of no mean order, and he asked his friends and neighbors to give him the nomination, promising in return to devote his labor and talent in an honest endeavor to pass good, wholesome laws for the economical government of the Golden State.

A man by the name of Smith, from Siskiyou, came upon the scene about this time, and said: "I want to represent old Placer in the Legislature myself. I am better qualified to perform the duties of the office than any man you have here."

This declaration rather startled the community, and the old-timers of Auburn were a little indignant, but they could not help but admire the man with such a case-hardened check, and began inquiring into his past life. They found that his neighbors in Siskiyou, with but very few exceptions, had not a kind word for him, and they also found that his social and political record at home was not above suspicion, and they told him so. They said to him: "We do not believe we care to have you go as our representative until we know you better."

At this Smith grew very wroth, and frothed and fumed around a good deal. He finally jumped a passenger train and flew to the corner of Fourth and Townsend streets, in San Francisco, and informed the great corporation that holds down that corner that unless they sent word to their agents and employees along the line in Placer, their interests would be ruined by a man who had no love for them. He was informed that they were "out of politics," and could do nothing for him.

The Superintendent of the little narrow-gauge road running out of Colfax was next appealed to. The gentleman from Siskiyou reminded that official of his friendship in past years while representing Siskiyou, and finally enlisted the Superintendent's efforts in his behalf. Armed with this he went back to Auburn, and in tones louder than ever demanded that the people should have him whether they wanted him or not, and began making a vigorous canvass.

This was a long, long time ago, and the gentleman from Siskiyou has not got in as a representative from Placer yet, for the people of that county said "Sit down, Smith!" and Smith had to sit down.

## Democratic Consistency.

The Salt Lake Tribune says: The Democrats of Montana have nominated Judge W. W. Dixon for Congress. He is a first-class lawyer and man in every respect. He has been an ornament to the profession of the law in Montana, and an honor to the manhood and citizenship of Montana, for several years. Under normal conditions he ought to receive the vote of every member of his party in that State. After performing the serious work of the convention it seems the Democrats up north, as disgraced bodies sometimes will, indulged in a little harmless merriment. In the same breath they advocated the free coinage of silver and commended the administration of Grover Cleveland. How those two features could be got into the same platform without a smile is incomprehensible. It reads precisely as it would have read twenty-eight years ago had a convention in Boston recommended the prosecution of the war, and, at the same time, endorse the administration of James Buchanan. There have been a good many pronounced goldites in the East; a good many ready to assert their opinions in season and out; but among all no other individual ever tried so hard, or used his official position with so much power, to destroy silver as money, as did President Cleveland. After he was elected and before he was inaugurated he wrote a letter to a prominent member of

Congress inveighing against the Bland law. He maintained that ground, with the obstinacy which is a part of his nature, to the last day of his administration. So unlimited was his control that in the convention which renominated him for President the strongest advocates for justice to silver did not dare open their lips on the subject. Now Western Democrats are put in the dilemma of endorsing his administration, and expecting to renominate him the year after next, and still on every occasion they insist upon the free coinage of silver. It awakens a suspicion that they are anxious to drive the Republicans forward, and to secure that legislation and have the matter settled before it comes time to nominate a president again. This is commendable, and the Republicans understand it so well that we think they will oblige them by passing such a law early in the next session, probably in December or January.

The same argument that many are using against Colcord, to wit, that he is "Yerlington's candidate," may be used with equal force against Foley, for he is "Yerlington's candidate" in its broadest sense.

The New York Times estimates that during last season American tourists to Europe have left \$100,000,000 abroad, and yet it is impossible to raise one thousandth part of that sum in the United States to erect a monument to the great soldier, General Grant.

## A ST. LOUIS PHYSICIAN.

### He Tests a California Production.—His Report.

A St. Louis gentleman whose affliction was sick headaches was so surprised at their cure by Joy's Vegetable Sarsaparilla, that he called it to the attention of a relative, who happened to be Dr. F. A. Barrett, the well-known St. Louis physician of 3652 Shenandoah Street. The doctor saw at once that it differed from the potash preparations in that it was purely vegetable, and becoming interested, began a series of investigations, and in a subsequent letter candidly admitted its curative properties, and says:—

Wishing to test its virtues further, I used it in my own family, and prescribed it for patients who required a general system regulator. As a result, I can say it is an almost absolute cure for constipation, biliousness, dyspepsia, indigestion, and sick headaches. These troubles usually come from a disturbed condition of the stomach and bowels, and Joy's Vegetable Sarsaparilla is the best laxative and stomach regulator I have ever seen, and as a general system corrector is almost perfect.

A Ripe Old Age.

S. H. Holcomb and wife, of Belcher-ville, Texas, have celebrated their fifty-fifth wedding anniversary and are still hale and hearty. The secret of their long life and good health is that they correct any slight ailment promptly, and in that way avoid serious sickness. Like most every one else, they are more frequently troubled with constipation than any other physical disorder. To correct this they take St. Patrick's pills in preference of any other, because, as Mr. Holcomb says, "They are a mild pill and, besides, keep the whole system in good order. We prize them very highly." For sale by Shoemaker & Co., druggists.

Remarkable Rescues.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found it beneficial. In the first dose it attracted its use and after taking ten bottles, found herself sound and well, now does her own housework as well as all her previous duties—Free trial bottles of this Great Discovery at W. F. Plummer's Drug Store, large bottles 50c. and 1.00.

Struck the Golden Mean?

The Detroit Free Press says: "Hibbard's Rheumatic Syrup, prepared by the Charles Wright Medicine Company, of this city, has struck the Golden Mean in the treatment of all blood diseases, and its success is an evidence that an honest, pure and valuable medicine is not incapable of attracting the attention of every family. There seems to be but one opinion as to its merit as a family medicine."

This is the real secret of the success of this wonderful remedy. It is a perfect and speedy action, in removing the impurities and poisonous matter from blood. No home should be without it, as a thorough and effective blood purifier for young and old. For sale by all druggists.

There may be persons in this community who are times troubled with colic, or subject to attacks of bowel complaint. If so, they should try Chamberlain's Colic, Cholera and Diarrhoea Remedy. It will afford almost immediate relief, and when reduced with water is pleasant to take. If taken as soon as the first indications of the disease are felt it will ward off the attack. Many people use it in this way, and find that it never fails them. A 25 or 50 cent bottle may be obtained from Shoemaker and Co.

More Shoulder Cured.

Charles A. Stiles, 180 Carroll st., Buffalo, N. Y., writes: "I have been a clerk in the Continental Hotel, corner Exchange and Michigan sts., for some years, and first used Allcock's Porous Plaster three years ago for a sore shoulder. I felt down stairs and got a terrible wrench and bruise. For several weeks I suffered acute pain in the shoulder joint and, getting no relief from numerous liniments, I put on an Allcock's Porous Plaster; kept it on for two or three weeks and my shoulder was well. I also cured me in six weeks of a most obstinate form of dyspepsia."

A Sure Cure for Piles.

Hitching Piles are known by moisture, the perspiration causing intense itching when warm. DEATH OF GOV. STEVENSON.

He Quietly Passes Away, Surrounded by His Many Friends and Relatives.

The sad news of the death of Governor Charles Clark Stevenson was received here yesterday morning. He died at 2 o'clock Saturday night.

Governor Stevenson had been a sufferer for two months, and about three weeks ago his illness took a serious turn and he has been hovering around death's door ever since, until death came to his relief, and he peacefully closed his eyes on all earthly cares and his spirit took its flight to realms beyond the skies. Governor Stevenson was born in Phelps, Ontario county, New York, and was therefore 64 years old. He was brought up a farmer and moved to Nevada from Michigan in 1859, crossing the plains with a trail that started for Pike's Peak, but subsequently changed their plans. He followed mining, and occasionally took a hand in politics. He was elected State Senator from Storey county in 1865, and again in 1872. He was President of the State Agricultural Society during its palmy days. He was elected Governor in November, 1886, and performed the duties of the office up to within a short time ago. He was always a warm friend of Washoe county and will be greatly missed by his many admirers in this section. As Governor he performed the duties devolving upon him with a steady hand and clear brain, and while he made some mistakes, they were errors of the head and not the heart. He became involved some months ago in litigation with the stockholders of the Kentucky Mining Co., and it was upon him until his health gave away under the strain and ended in his death. He

was always a very enthusiastic supporter of the State University, and the rising generation will have occasion to remember his many acts of kindness for a long time.

On the arrival of the funeral train here Brigadier General Bouton and staff and the Reno Guards will take charge of the body until the arrival of the overland.

ABSOLUTELY PURE

THE FRIEND OF THE PEOPLE.

Francis G. Newlands taking a hand in the management of the Comstock Mines.

The following is taken from the Mining and Scientific Press of Sept. 20, and only goes to show that Francis G. Newlands is a true friend of Nevada and that he is doing more to bring the list up to a standard of respectability than all the rich men we have on the coast. Notwithstanding the attempt of his jealous enemies to drive him out he seems to be building a bumble bee nest around their heads that they will be very likely to hear from. The Press says:

In another department is printed a communication from J. H. Tingman, vice-president of the Mining Stock Association, criticising the position of Virginia papers on the subject of the Comstock ore. Mr. Tingman gives figures which challenge attention. If they are wrong, then the directors and superintendent of the Hale and Norcross mine owe it to themselves, if not to stockholders, to bring libel suits against the authors of the charges. If they are correct, then the sooner those who are guilty of the wrong acts are ousted from their places of trust and made to pay to stockholders all deficits or funds wrongfully appropriated, the better will it be for the mining industry on this coast, but more particularly in Nevada.

When charges against the Hale and Norcross management were first published, there were many who did not give credence to them; but under repeated charges, with the last stronger than the first, their faith is being shaken, and unless those against whom they are published take steps to prove themselves guiltless, the shaken confidence of the public will give way to a certainty of belief that the charges are founded upon fact.

With a lack of confidence in the manner in which the Comstock mines are worked, it will take much for its removal so as to bring in a desirable class of outside buyers of mining shares. There are many who expect to have this brought about by a change in the management of the mines, by action of law, or else by having the attention of the leading capitalists, who are supposed to have interests in Nevada mines, attracted to the situation, with the view of bringing about reforms.

There are those who look to Francis G. Newlands as being more likely than any one else to look into the workings of the particular mines he is supposed to control in the interest of the Sharon estate, and bring about needed reforms. In this opinion, they are strengthened by the well-known fact that he has identified himself with the undeveloped resources of Nevada, which promises to make, before many years, that State noted for agriculture as well as mining. The steps he has already taken to develop the latent industries of the State are a wide departure from those of other owners of Nevada property, who have made millions by the mines.

Mr. Newlands has already given evidence of a desire to right any wrongs to which outside stockholders in the mines controlled by the Sharon estate have been subjected. This is witnessed in his action regarding the mill contracts of the Yellow Jacket mine. He not only had the contracts stopped as soon as he discovered that they caused the mining shares to be assessed while the company was milling ore taken from the mine, but we are credibly informed he canceled the company's indebtedness—about \$200,000—when he ascertained that the indebtedness was incurred for milling and mining rock that would not pay. For this generous act he deserves the cordial thanks of all outside shareholders. Not only was the milling contract stopped, but he reduced the milling charges to \$6 a ton—another act in behalf of stockholders. His good work should not end here. Now that he has his irrigation schemes and other beneficial acts well under way and no silver legislation to engage his time, he should give attention to the mine assays, car-sample assays, as well as battery assays of each and all of the mines under his control. This is what the law requires (Mr. Newlands, being a lawyer, knows this to be true) and which given will disarm criticism. Not only should he see that the above is done, but more than this, he should open out the body of ore lately found in Confidence 40 feet north of the level of which he must surely be informed by this time.

Mr. Newlands is a new mining magnate on the Comstock. He is in no way responsible for the past acts of other people, and should be judged by the stockholders of the community only for his own acts. Now is his golden opportunity to right the wrongs of the stockholders and at the same time do justice to himself.

We are informed that a majority of the Mining Stock Association are stockholders in the Gold Hill mines, some owning several thousand shares and are in reasonable hopes of the much-needed reform being inaugurated there. Mr. Newlands is certainly in position to carry out these ideas, and it is to be hoped that he will see the necessity of continuing the reform started by himself in the Yellow Jacket mine and let the adjustment of affairs extend to all the mines under his control.

Word was received from Carson last evening that while Mrs. C. N. Noteware and Miss Kate Bardenwerper were riding through the town, their horse took fright and precipitated both ladies to the ground, very dangerously injuring Mrs. Noteware and severely bruising Miss Bardenwerper. Dr. Brigham, the distinguished San Francisco surgeon, who was at Lake Tahoe, was brought to Carson as soon as possible, and he and Dr. S. L. Lee of Carson proceeded to raise Mrs. Noteware's skull, which was found to have sustained a dangerous fracture. After the pressure on the brain had been removed the patient seemed slightly better, but her condition is regarded as very critical. Miss Bardenwerper was severely bruised about the face and breast and seemed to be somewhat injured internally, although no bones were broken.

Dr. Brigham, the distinguished San Francisco surgeon, who was at Lake Tahoe, was brought to Carson as soon as possible, and he and Dr. S. L. Lee of Carson proceeded to raise Mrs. Noteware's skull, which was found to have sustained a dangerous fracture. After the pressure on the brain had been removed the patient seemed slightly better, but her condition is regarded as very critical. Miss Bardenwerper was severely bruised about the face and breast and seemed to be somewhat injured internally, although no bones were broken.
